## Water/Wastewater/Sludge

- Inclined Plate Clarifier Provides High Separation Efficiency, **10/98**, pg. 59.
- Dredging Restores Storage Pond to Full Capacity, **10/98**, pg. 59.
- Bearings Solve Leakage and Haz Waste Disposal Problem, **10/98**, pg. 61.
- System Cuts Costs and Hazards While Reducing Odor, **10/98**, pg. 60.
- Solvent-Free Cleaning Process Reduces Water Use, **10/98**, pg. 27.
- Taking Biosolids Processing Private, **11/98**, pg. 42.
- Product Guide: Oil/Water Separation, **11/98**, pg. 45.
- EPA Web Page Streamlines River Management, **12/98**, pg. 21.
- Combining Treatment Technologies to Eliminate Wastewater Discharge, **Winter '98 International**, pg. 20.
- Liner Pipe Maintains Flow During L.A. Sewer Rehab, **1/99**, pg. 61.
- Dozen Flow Loggers Track I&I, **1/99**, pg. 61.
- Tank Cover Controls Odor, **1/99**, pg. 62.
- Effluent Diffusion Ensures Compliance, **1/99**, pg. 63.
- Bigger, Better, Cheaper — More Than a Pipe Dream?, **1/99**, pg. 27.
- Screening Solids Cuts Treatment Costs, **2/99**, pg. 46.
- Biosolids Initiatives Promote Beneficial Reuse, **2/99**, pg. 40.
- Effluent Trading: Making it Work, **2/99**, pg. 21.
- Drier Cake Means Lower Disposal Costs, **3/99**, pg. 57.
- Metal Product Manufacturers Next in Line for EPA's Effluent Guidelines, **3/99**, pg. 44.
- Evaluating Wastewater's Impact on Activated Sludge, **3/99**, pg. 21.
- Polyurethane Spray Puts a Stop to Sewer Infiltration, **Spring '99 International**, pg. 35.
- Colombes Plant Designed to be Good Neighbor, **Spring '99 International**, pg. 4.
- Selecting Among UV Systems, **Spring '99 International**, pg. 24.
- Screen Solves Nuisance CSO, **4/99**, pg. 46.
- EPA Spreads the Word on Y2K to Water Utilities, **4/99**, pg. 21.
- Developing Tools to Tackle Non-Point Source Pollution, **5/99**, pg. 54.
- Watershed-Based Credit Trading — Are You Ready?, **5/99**, pg. 31.
- Product Guide: Matching the Flowmeter to the Flow, **5/99**, pg. 58.
- Skimmer Recovers Subsurface Contaminants, **6/99**, pg. 69.
- Elastomer Diffusers Keep Aerators Running, **6/99**, pg. 70.
- Creating Public-Private Partnerships in Wastewater Treatment, **6/99**, pg. 66.
- Understanding Factors Influencing Biosolids Management, **Summer '99 International**, pg. 12.
- UV Oxidation Provides the Missing Link, **7/99**, pg. 49.
- Evaluating Arsenic Removal Technologies, **7/99**, pg. 25.
- The Road to Zero Discharge, **8/99**, pg. 30.
- Region Addresses Legacy of Toxic Sediments, **8/99**, pg. 23.
- Bacteria Doubles Degreasing Efficiency and Eliminates Sludge, **9/99**, pg. 53.
- Thirty Years of Industrial Wastewater Treatment, **9/99**, pg. 40.
- Product Guide: Sludge Dewatering Equipment, **9/99**, pg. 51.
- New Software Tools Help Make a "Model" Plant, **9/99**, pg. 23.
- Sludge Treatment Options, **Autumn '99 International**, pg. 22.
- Single-Stage Process Fits French Coastline, **Autumn '99 International**, pg. 26.
- Geotextile Tubes Handle Sludge Overload, **10/99**, pg. 39.
- Membrane Filtration Key to Zero-Discharge Facility, **10/99**, pg. 39.
- Disinfecting Drinking Water with UV Light, **10/99**, pg. 34.
- Region's Challenges Spur Unique TMDL Approach, **10/99**, pg. 19.

## Air Pollution Control

- Upgrading and Retrofitting RTOs, **10/98**, pg. 54.
- Reducing HAP Emissions to Avoid NESHAP Applicability, **11/98**, pg. 21.
- Chemical Plant Selects Catalytic Oxidation Technology, **11/98**, pg. 47.
- Ability to Hold Pressure Constant Sets RTO Apart, **11/98**, pg. 47.
- Wet ESP Controls Fine Particulate, **11/98**, pg. 48.
- 112(r) — A Risk Management Overview, **12/98**, pg. 50.
- Manufacturer Recycles Solvents, Cuts Air Emissions, **Winter '98 International**, pg. 23.
- System Handles Emissions from Refuse-Derived Fuel, **Winter '98 International**, pg. 23.
- Flue Gas Desulfurization Plant Allows Power Plant to Remain Open, **Winter '98 International**, pg. 24.
- Controlling $NO_X$ Emissions, **Winter '98 International**, pg. 14.
- Wet Scrubber Operation and Maintenance Demystified, **1/99**, pg. 23.
- VOC Emission Control with Polymeric Adsorbents and Microwave Desorption, **1/99**, pg. 58.
- RTO Provides Cost-Effective Control of Odor and VOCs, **2/99**, pg. 43.
- Rotor Concentrator Reduces VOC Emissions, **2/99**, pg. 43.
- Considering VOC Control Options, **Spring '99 International**, pg. 28.
- Chemical Aspects of $NO_X$ Scrubbing, **4/99**, pg. 32.
- Developing and Submitting a Risk Management Plan, **5/99**, pg. 29.
- Shedding Light on New Generation RTO Technology, **6/99**, pg. 56.
- Abating VOCs with Biotechnology, **Summer '99 International**, pg. 16.
- Understanding $NO_X$ Control Options, **Summer '99 International**, pg. 18.
- Plastic Heat Exchangers Maximize FGD, **Summer '99 International**, pg. 34.
- Reducing Particulate Matter Emission Rates, **Summer '99 International**, pg. 30.
- EPA Answers Title V Deferment Questions, **7/99**, pg. 21.
- Particulate Control Technologies for Power Generation, **7/99**, pg. 40.
- Single-Valve RTO Eliminates Odors and VOCs, **8/99**, pg. 41.
- Carbon Controls Emissions for Printed Circuit Board Plant, **8/99**, pg. 41.
- Haze Rule Will Be Most Challenging EPA Regulation, **9/99**, pg. 21.
- Foam Controls Odor, VOCs During Excavation, **9/99**, pg. 54.
- Aromatherapy: The Art of Being a Good Neighbor, **9/99**, pg. 46.
- Army Tests Enviro-Friendly Solvent Alternative, **9/99**, pg. 35.

- Aromatherapy: The Art of Being a Good Neighbor, **9/99**, pg. 46.
- Army Tests Enviro-Friendly Solvent Alternative, **9/99**, pg. 35.

- Gas "Sponge" Soaks Up $H_2S$ at Italian Paper Plant, **Autumn '99 International**, pg. 25.
- Efficient Wet Control Process Tackles Dioxins and Furans, **Autumn '99 International**, pg. 25.
- Manufacturer Finds Solution in Fluidized Bed, **Autumn '99 International**, pg. 27.
- Stretching Your RTO Dollars, **10/99**, pg. 30.

## Hazardous Waste/Materials

- Airport Fuel Farm Built with Oil-Water Separator, **10/98**, pg. 62.
- Minimizing the Risks of Shipping Hazardous Materials, **12/98**, pg. 54.
- Water-Based Cleaner Handles Freeway Spill, **2/99**, pg. 44.
- Do You Have Universal Wastes?, **2/99**, pg. 38.
- Army's Environmental Program Provides Cleanup, **3/99**, pg. 37.
- Process Stabilizes Radioactively Contaminated Mercury, **3/99 Federal Facilities Supplement**, pg. 19.
- Chemical Oxidation, Natural Attenuation Drafted in Navy Cleanup, **3/99 Federal Facilities Supplement**, pg. 10.
- Turning Process Wastes into Operating Profits, **Spring '99 International**, pg. 32.
- Breakdown Products Complicate Munitions Remediation, **Spring '99 International**, pg. 12.
- Interactive Telemetry Controls Remedial Operations at Hazardous Waste Site, **4/99**, pg. 42.
- Effective Auditing is Key to Selecting an Environmental Services Partner, **5/99**, pg. 60.
- Interactive Telemetry Controls Groundwater Operations, **Summer '99 International**, pg. 24.
- A Cost-Effective Approach to Treating Hazardous Process Wastes, **8/99**, pg. 38.
- Innovations Address Industry Waste Streams, **Autumn '99 International**, pg. 18.
- State-of-the-Art Robot to Take on Chernobyl, **10/99**, pg. 21.

## Instrumentation

- Dozen Flow Loggers Track I&I, **1/99**, pg. 61.
- Propeller Meter System Automates Water Reclamation, **2/99**, pg. 25.
- Electronic Nose Sniffs Out, Classifies Contamination, **2/99**, pg. 31.
- Photon Counting in Spectroscopic Air Pollution Analysis, **3/99**, pg. 48.
- Remote Sensing System Aids Watershed Cleanup, **5/99**, pg. 41.
- Product Guide: Matching the Flowmeter to the Flow, **5/99**, pg. 58.
- Respirometer Tests Wastewater for Treatment, **7/99**, pg. 49.
- Probe Fouling Not a Problem for New Dust Monitors, **Summer '99 International**, pg. 34.
- Tool Maps Subsurface Hydrocarbon Contamination, **7/99**, pg. 33.

## Laws & Regulations

- Uncertain Future: Court Rules CER Not Ripe For Review, **10/98**, pg. 35.
- Federal Report Sets Direction for TMDL Program, **10/98**, pg. 21.
- Reducing HAP Emissions to Avoid NESHAP Applicability, **11/98**, pg. 21.
- EPA Form Letter Ignites Firestorm in Region VII, **11/98**, pg. 29.
- 112(r) — A Risk Management Overview, **12/98**, pg. 50.
- EPA Issues WMPT "Nifty 50" List, **12/98**, pg. 27.
- EPA Web Page Streamlines River Management, **12/98**, pg. 21.
- EPA Issues Spent Solvents No-List Determination, **1/99**, pg. 33.
- 1999: The Year of Chemical Testing Initiatives, **2/99**, pg. 29.
- Effluent Trading: Making it Work, **2/99**, pg. 21.
- EPA Proposes Lower EPCRA PBT Reporting Thresholds, **3/99**, pg. 27.
- Endocrine Project May Result in Significant Testing, **4/99**, pg. 25.
- Developing and Submitting a Risk Management Plan, **5/99**, pg. 29.
- EPA Initiates National Enforcement Strategy, **5/99**, pg. 35.
- Court Invalidates Cooperative Compliance Program, **6/99**, pg. 49.
- EPA Answers Title V Deferment Questions, **7/99**, pg. 21.
- New Center to Evaluate Human Reproduction Risks, **7/99**, pg. 31.
- Haze Rule Will Be Most Challenging EPA Regulation, **9/99**, pg. 21.
- EPA Proposes Significant Revisions to BEN Model, **9/99**, pg. 31.

## Pollution Prevention

- Avoid Oversights With Environmental Consequences, **10/98**, pg. 31.
- Trees, Turbines Are All Part of Utility's Initiatives, **11/98**, pg. 25.
- Project Transforms Company Focus from Steel to Energy, **12/98**, pg. 23.
- Reducing Particulate Matter Emission Rates: Part II, **1/99**, pg. 35.
- Latest EPA WasteWise Winners Illustrate P2 Trends, **1/99**, pg. 29.
- Pollution Prevention Comes of Age, **2/99**, pg. 34.
- EPA Strategy Highlights Next Generation of P2 Issues, **2/99**, pg. 27.
- Army, Navy Team up for Pollution Prevention, **3/99 Federal Facilities Supplement**, pg. 20.
- Buying "Green" Reduces Disposal Costs, Liability, **4/99**, pg. 29.
- Renewal Process Avoids Recycling Drawbacks, **4/99**, pg. 23.
- Saving Energy and Reducing $CO_2$ Emissions, **5/99**, pg. 33.
- Recognizing Little Victories in Waste Reduction, **6/99**, pg. 45.
- From Trout Farm to Award-Winning Protection, **7/99**, pg. 29.
- Finding a Better Way to Manage Runoff, **8/99**, pg. 25.
- Beyond Compliance: Encouraging Top Performance, **8/99**, pg. 15.
- E-System Manages Inventory To Reduce Risk, **9/99**, pg. 27.

## Pumps, Pipes & Valves

- Product Guide — Material in Motion: Picking a Pump, **3/99**, pg. 52.
- Companies Work to Improve Inspection Camera, **Spring '99 International**, pg. 36.
- Pumps Handle Scrubbing Media's Suspended Solids, **Spring '99 International**, pg. 36.
- Submersible Pump Stops Waste Overflow at Paper Mill, **4/99**, pg. 45.

## Remediation, Soil & Groundwater

- Alcohol Flushing Technique Attacks NAPL Source Areas, **10/98**, pg. 39.
- Selecting the Appropriate Abatement Technology, **11/98**, pg. 36.
- Soil Augering with Steam Injection Removes Solvents, **12/98**, pg. 57.
- Oxygen Injection Speeds Biodegradation of VOCs, **12/98**, pg. 57.

- In Situ Chemical Oxidation Targets Soil and Groundwater Contaminants, **12/98**, pg. 58.
- Considering Innovative Groundwater Technologies, **Winter '98 International**, pg. 18.
- Army Base Recycles Contaminated Soil for Pavement, **1/99**, pg. 39.
- Process Destroys TCE in Soil, Groundwater, **3/99**, pg. 55.
- Remediation at the Millennium, **3/99**, pg. 40.
- Using Molecular Probing to Monitor Soil Biotreatment, **3/99**, pg. 33.
- Technology Puts Heat on Stubborn Groundwater Contamination, **3/99 Federal Facilities Supplement**, pg. 18.
- Military Applies Environmental Standards to Bosnia, **Spring '99 International**, pg. 23.
- Utility Selects Lignite-Based Carbon After Study, **4/99**, pg. 45.
- Skimmer Recovers Subsurface Contaminants, **6/99**, pg. 69.
- Groundwater Circulating Wells with In-Well Air-Stripping, **7/99**, pg. 44.
- Process Binds Metals at Old Gold Mine Site, **9/99**, pg. 53.
- Bioremediation — A Powerful Companion Technology, **10/99**, pg. 26.

## Software

- Environmental Software: Programmed To Do the Job, **1/99**, pg. 44.
- Hazard Communication System Uses Web-Based Intranet, **3/99**, pg. 55.
- Databases Keep Pace with Recordkeeping Demands, **5/99**, pg. 37.
- EPA Proposes Significant Revisions to BEN Model, **9/99**, pg. 31.
- E-System Manages Inventory To Reduce Risk, **9/99**, pg. 27.
- New Software Tools Help Make a "Model" Plant, **9/99**, pg. 23.

## Solid Waste/Landfills

- Turning Process Wastes into Operating Profits, **Spring '99 International**, pg. 32.
- Effective Auditing is Key to Selecting an Environmental Services Partner, **5/99**, pg. 60.
- Compactor Improves Capacity, Reduces Downtime, **6/99**, pg. 69.
- Innovations Address Industry Waste Streams, **6/99**, pg. 62.

## Storm Water

- Airport Fuel Farm Built with Oil-Water Separator, **10/98**, pg. 62.
- Storm Water Facility Design: Calculating the First Flush, **12/98**, pg. 44.
- Storm Water Facility Design: Calculating the First Flush, **Summer '99 International**, pg. 20.
- Orly Facility Controls Airport Runoff, **Summer '99 International**, pg. 35.

## Tanks/Containment/Liners

- Putting Safety First in Tank Selection, **10/98**, pg. 50.
- Robot System Goes Underground at Oak Ridge, **3/99 Federal Facilities Supplement**, pg. 14.
- New Tanks Come in Improved Packages, **7/99**, pg. 36.

## Management/Miscellaneous

- Implementing ISO 9000 and ISO 14000 Concurrently, **10/98**, pg. 46.
- Employee Awareness Will Define Success of EMS, **10/98**, pg. 43.
- What You Don't Know Can Definitely Hurt You, **11/98**, pg. 33.
- Community Relations Plan Speeds Ammo Plant Cleanup, **12/98**, pg. 31.
- Communication Speaks Volumes About an Effective EMS, **12/98**, pg. 33.
- When Information Can Mean Security — or Catastrophe, **12/98**, pg. 19.
- Groundwater Pollution Takes Center Stage in Stockholm, **Winter '98 International**, pg. 10.
